A Personal Note to Our Friends

7OUR business and your profits depend on the quality of the products you offer to your customers. You know the importance of sowing good seed. It is the very foundation on which you build for profit and permanence. We have long sensed these factors in our own business and therefore, when you send your seed order to us you may be assured of receiving only the best grades of recleaned, tested, true-to-name seeds.

A. H. HUMMERT SEED CO.

We expect to adhere throughout the summer to the prices quoted herein unless causes beyond our control require a change, in which case we shall be governed by the market. All goods are offered subject to prior sale.

Payments. All accounts are net 30 days, or 2 per cent discount if check is received in 10 days from date of invoice. Interest will be charged on overdue accounts.

Cash Discounts. When your remittance is enclosed with order, cash discount of 5 per cent is allowed on all orders for flower seeds.

Postage. We pay postage on all orders for flowers seeds.

C. O. D. We prefer not to send goods C. O. D., but when wanted in that manner, 25 per cent of amount of order must accompany it.

PERISHABLE STOCK. Plants, Bulbs, etc., are POSITIVELY not sent C. O. D.

Routing. On each order please give name of railroad you wish shipped by; there is no other surer way of correct routing. DO NOT use the words send, ship or forward-they mean nothing. State distinctly: Mail, Express or Freight.

IMPOSSIBLE TO GUARANTEE CROPS

Warranty. Though the utmost care is used in grading and selecting, we do not warrant in any way, expressed or implied, the contents or the description, purity, productiveness or any other matter of any seeds, bulbs or plants, sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on these terms, no sale is made thereof, and he must return them at once, and money will be refunded.

For the business you have sent us we are grateful, and trust that we may continue to serve you carefully and promptly.

CALENDULA

Calendula are easily grown in a cool house with plenty of air. In fall, leave the ventilators wide open at all times if possible. A midwinter temperature of 45 degrees at night is best. If grown cool in a good soil you will get good hardy plants. The reason flowering plants sometimes come single is due to check in growth, such as poor soil, lack of water, or weakened through aphis. Sow seed first week in August for end of December or January crop. One ounce will produce about Tr. pkt. 1/4 oz. Oz. 2500 plants.

Pacific Giants (Vetterle and Reinelt)

Which are Well Worth a Trial.

Remarkable new strain developed by Vetterle and Reinelt on the Pacific Coast. Flowers extremely large and well formed, 2½ to 3½ inches in diameter, symmetrically spaced on well-balanced spikes of thin woody stems, practically 100 per cent double. This strain is comparatively mildew resistant.

Bluejay Series

Every Delphinium lover seeks the true blue color, which is so rare in nature and so difficult to obtain. These series are our bid toward attaining it. The color is striking, clear medium to dark blue; very intense and alive, with dark, contrasting bee.

Tr. pkt., \$1.00; ½ oz., \$3.00; ¼ oz., \$5.25; ½ oz., \$10.00.

Galahad Series

Clear White of enormous size, averaging three inches in diameter of individual flowers with very heavy glistening texture, pyramidal spikes with well spaced flowers, good branching habit, strong, whippy stems with a high percentage of mildew resistance.

Tr. pkt., \$1.00; ½ oz., \$2.50; ¼ oz., \$4.50; oz., \$16.00.

Delphinium, Pacific Giants

Lancelot Series

Pure Lilac. A new color in Delphinium of pure lilac self tone with white bee. Individual flowers 2 to 2½ inches in diameter. The growth has all the desirable characteristics, making it an ideal cut and show flower. Tr. pkt., \$1.00; ½ oz., \$2.50; ¼ oz., \$4.50; oz., \$16.00.

King Arthur Series. A true royal purple with white bee. Tr. pkt., \$1.00; ½ oz., \$2.50; ½ oz., \$4.50; ½ oz., \$8.00.

Round Table Series

As the name implies, this represents all of the color combinations of the Knights and their Ladies which will eventually be introduced. This year some three hundred different crosses were used to make up this group, combining all the newest color developments and possessing size that will make them invaluable for show purposes.

SELECTED PETUNIAS

Good Petunias are becoming more in demand each year, the medium and dwarf varieties for bedding, and the Fringed and Double as a pot plant for Mother's Day Sales.

To grow good Petunias you must have rich soil. Before sowing the seed we recommend treating the soil with hot water to kill all fungi and weed seed in the soil.

Our Petunia seeds are of the finest quality, grown by the best growers in Europe and California, from selected plants, and are hand pollenized; no matter how careful the selection, you sometimes will find a few plants which revert to the old type; these usually bloom first. This is a natural habit of Petunias.

All-Double Dwarf "Victorious" Strain

These plants are remarkably uniform in habit, producing a wonderful assortment of brilliant and fancy colorings. They produce very large, fully doubled flowers. As they seldom grow more than 10 inches in height, they are very suitable for pot plant sales.

Amaranth Red. A strong outstanding red.

Apple Blossom (Daintiness). Light rose-pink.

Blue Brocade. A new dwarf All-Double, true violet-blue, stocky growth, good bloomer.

Gaiety. Rose-red and white with beautifully frilled petals.

Loveliness Fringed. Clear pink. Very double compact habit.

Orchid Beauty. Color orchid or light lilac, heavily veined deeper lilac or violet.

Purple. Dark velvety purple.

Rose-Carmine (World Beauty Pink Perfection). Fringed bright carmine flowers.

Pure White. A companion to Loveliness. This is one of the best double fringed white Petunias.

All-Double Dwarf Giant Fringed Mixed (Victorious).

The flowers are very large, exquisitely ruffled and fringed.

Price on the All-Double varieties: ½ Tr. pkt. (500 seeds), \$1.25; 1 Tr. pkt. (1000 seeds), \$2.00; 3 Tr. pkts., \$5.00.

Dwarf California Giants

Dwarf Giants of California

Supreme Florist Strain

A dwarf sturdy growing type especially suited to pot culture. Flowers are beautifully ruffled and fringed with open well marked throats. This dwarf class makes particularly fine 3 and 4-inch pot plants for spring business. Seed for this purpose should be sown in January.

Ruffled Grandiflora Nana Compacta Mixed

In this distinctly new Petunia we are able to offer for the first time both the dwarf compacta and the large flowered ruffled in one variety. The blooms are extra large, well ruffled, with good open throats, and are more of the Dwarf Giants of California type in both form and size. They will measure about 4 inches in diameter. **Tr. pkt., \$1.00.**

Petunia, Large Fringed Grandiflora

Large Fringed Grandiflora

While not quite so large as the Ruffled Giants, these fringed Petunias have a charm of their own, due to their attractively fringed blooms.

Grandiflora Compacta Fringed or Dwarf Erfurts

All Heavily Fringed

SINGLE DWARF FRINGED - 10-inch

For neat compact growth and richly fringed flowers, this class is most valuable for use as pot plants. Also highly attractive for bedding.

SWEET PEAS Early or Winter Flowering

All of the newer varieties are very strong growers and will produce heavy stems with four and five flowers on each. Early Spencer Sweet Peas are also adapted for winter flowering in the open, when planted in the milder latitudes.

Twelve Best Varieties

The following varieties we consider the most valuable for cut flowers, either for culture under glass or for growing out-of-doors. Strong, vigorous growth of plant; long, stout stems and large flowers freely borne are characteristic of all the varieties.

New Giant Crested Howard Zinnia

New Giant Crested Howard Zinnia

Howard & Smith New Giant Crested Howard Zinnia. The following is the originator's description: They are the result of direct reciprocal crosses between the small flowered Scabious flowered class and those of the Giant Dahlia flowered section. The blossoms average from 4 to 5 inches in diameter, with a full rounded cushiony center surrounded by broad guard petals after the style of a Pyrethrum Roseum.

The colors included in the strain are charmingly bright and fresh, and contain almost all known colors and shades of color to be found in this most popular of annual plants. Magnificent shades of orange, orangescarlet, yellow, rose, and crimson predominate.

Tr. pkt., 50c; ½ oz., 75c; ¼ oz., \$1.15; oz., \$4.00.
